DETAILED ACTION

Allowable Subject Matter

1. Claims 30-49 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 30-49 are allowable because of the apparatus with an adjustment mechanism including an insert with a threaded passage that receives a threaded rod and the adjustment mechanism is movable between a first position in which the insert is positioned in of the detent recesses, wherein rotation of the threaded rod causes the turntable to rotate, and a second position. None of the prior art cited discloses an apparatus that incorporates the use of an adjustment mechanism including an insert with a threaded passage that receives a threaded rod and the adjustment mechanism is movable between a first position in which the insert is positioned in of the detent recesses, wherein rotation of the threaded rod causes the turntable to rotate, and a second position to allow the user to cut at the conventional cutting angles and non-conventional cutting angle. Therefore, in view of what has been stated above, the claims are allowable over the art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
